<b>ITEM # 3</b>	<b>Roskie Railing Installation</b>
-----------------	------------------------------------

**PRESENTERS:**

Mike Code – Project Manager; FPDC

<b>PROJECT PHASE:</b>	<b>PLANNING</b>	<b>SCHEMATIC</b>	<b>X</b>	<b>DESIGN DOCUMENTS</b>	<b>CONSTRUCTION DOCUMENTS</b>
-----------------------	-----------------	------------------	----------	-------------------------	-------------------------------

**VICINITY MAP:**

**STAFF COMMENTS:**

The benches that surround the elevated perimeter walkways of the pods that make up Roskie are crumbling, breaking apart and are no longer structurally sound. Additionally, the walkway elevation in most cases is greater than 30” above the ground. By code, this mandates a guardrail. Currently the existing benches do not meet this requirement, which poses a safety concern. These conditions were noted during the precast canopy demo, but due to monetary constraints, funding for the demo and replacement of the benches has been deferred until now. The proposal before UFPB includes the addition of a guardrail to replace the existing benches as a remedy. Photo of the existing condition and sketches of the proposed guardrail are provided below.

<b>COMPLIANCE:</b>	<b>YES</b>	<b>NO</b>
<b>MSU POLICIES</b>	<b>X</b>	
<b>COMMITTEE OR APPROPRIATE REVIEW</b>	<b>X</b>	
<b>MASTER PLAN</b>	<b>X</b>	
<b>BOARD ACTION REQUIRED:</b>		
<b>Recommend approval as a Consent Agenda Item to allow the design and installation of a railing system to replace the failing benches at the exterior perimeter.</b>
