

Updating iPhone & iPad following the transition to NetID

MSU-Secure Wireless

1. Tap **Settings**.

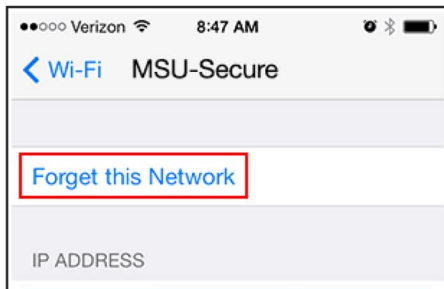

2. Tap **Wi-Fi**.

3. Check that Ask to Join Networks is off.

4. Tap **MSU-Secure**.

5. Tap **Forget this Network** and when prompted tap the Forget Network button.

6. Tap < **Wi-Fi** and repeat steps 4 and 5 for MSU and MSU-Guest.

7. Turn **Wi-Fi** off and then on again.

8. Tap **MSU-Secure**.

9. Enter your **NetID** in Username field.

10. Enter your **domain** password (the same as before).

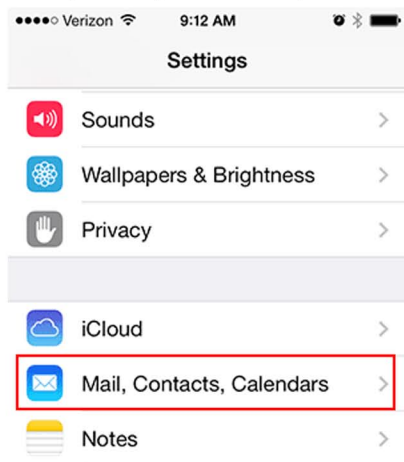

11. Tap **Join**.

12. Tap **Accept** when prompted to accept certificate.

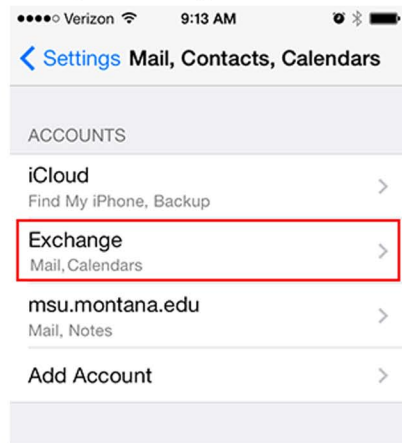

In order to again receive email on your iPhone or iPad, you must change the Username to your NetID on your Exchange account settings

1. Tap Settings

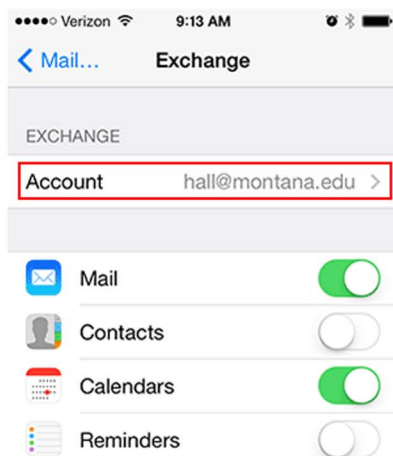

2. Tap Mail, Contacts, Calendars

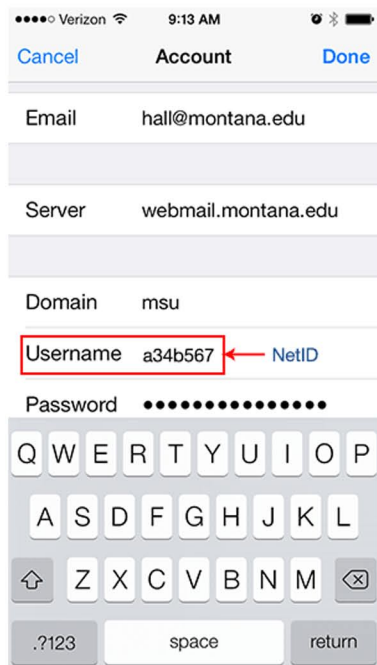

3. Tap Exchange

4. Tap on your email address

5. Enter your NetID in the Username field

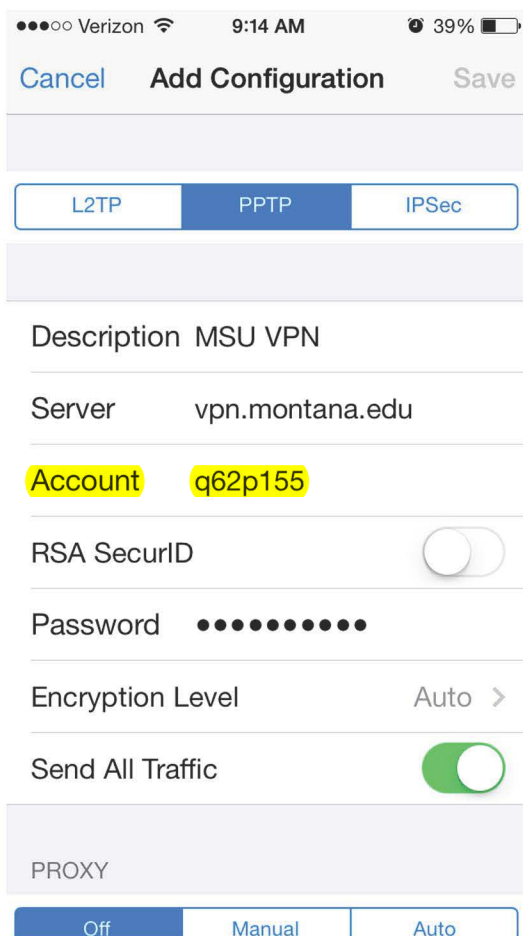

6. Tap Done

7. Your email should begin coming in.

To reestablish your iPad/iPhone's MSU VPN connectivity, you will need to go into the configuration and change the settings in the Account field from your name to your NetID.

1. Tap Settings
2. Tap **General**
3. Scroll down, Tap **VPN**
4. Tap the Info symbol to the right of **MSU VPN**  
5. On the Add Configuration screen, replace your name with your NetID
6. Tap **Save**
